KL KYROS | LAW

WWE Concussion Lawsuit

We are representing former WWE/WWF wrestlers who feel that they were unfairly treated and subjected to unsafe working conditions. Concussions & Head Injury risks ignored.

Listen to Attorney Kyros explain the basis of these lawsuits here: [On a Wrestling podcast!](#)

We represent many former wrestlers who seek to bring accountability to the practices of the WWE with the goal of bringing justice to former wrestlers who are often left with no health care, payments or options. Our lawsuit seeks to help all former WWE wrestlers in setting up medical monitoring, long term healthcare and compensation for damages sustained while working for or performing at WWE events.

Our lawsuit contends that the WWE for years ignored the health and safety of its talent and deliberately concealed the risks of head injuries & concussions, provided inadequate medical care, had totally inadequate health & safety protocols.

We need your help to bring justice to all wrestlers. If you are a former WWE wrestler this is the time to act to help. The more wrestlers that step up the stronger our case & more pressure we can put on the WWE to address these issues.

If you or a loved one wrestled with the WWE and want to join our lawsuit please call me direct. I am also interested in speaking to employees, doctors, promoters associated with the WWE with inside information that wish to be whistleblowers or help our case: Please call Attorney Bill Kyros at 1-800-934-2921 to discuss your rights.

We may be able to help you and your family recover damages from the WWE.

Kyros Law Offices along with our partners has significant experience representing consumers in complex plaintiff's cases throughout the country, including representing former NFL players (we are based in Boston) and we have recovered hundreds of millions of dollars on behalf of our clients.
